# Profile of GMAT ${ }^{\circledR}$ Testing: North American Report <br> Testing Years 2010 Through 2014 

November 2014

#### Abstract

Globally, more than 1.2 million Graduate Management Admission Test ${ }^{*}\left(\right.$ GMAT $\left.^{\ominus}\right)$ exams have been taken over the past five years by individuals interested in pursuing graduate management education. The GMAT exam is an important part of the admissions process for more than 6,100 graduate management programs worldwide. A total of 243,529 GMAT exams were taken by prospective business school students around the world in testing year 2014 (TY2014), which ran from July 1, 2013 through June 30, 2014. These examinees sent a total of 687,976 score reports to graduate-level management programs across the globe.

This report summarizes five-year GMAT testing trends for US and Canadian residents, and race/ethnicity breakdowns for US citizens. It includes:

- GMAT exams taken by US region, US state of residence, and race/ethnicity of examinees (US citizens only),
- GMAT exams taken by Canadian residents, by Canadian province,
- GMAT exams taken by gender and mean age of GMAT examinees,
- Mean GMAT Total score, and
- GMAT score-sending breakdowns by program type for TY2014.

Mean GMAT Total scores and mean age of examinees are provided for groups with five of more exams taken and 10 or more score reports sent.

## What Can I Do With the Data?

This data brief can help you build candidate profiles for specific US or Canadian groups around the world. For example, you can use the tables to determine the following about New York residents who sat for the GMAT exam in TY2014:

- New York residents sat for 12,072 GMAT exams.
- The mean age of New York residents was 25.8 and the mean GMAT Total score was 553.
- Of the 33,450 GMAT score reports sent by New York residents, 76 percent were directed to MBA programs.
- Women in New York (24\% of scores sent) were slightly more likely than men in New York (20\%) to send scores to non-MBA specialized master's programs.
- New York residents represented 11 percent of total testing by US residents.

Use this report as a starting point to target your search of potential students and enhance school recruitment efforts. For example, you can purchase names of prospective students using the Graduate Management Admission Search Service ${ }^{*}$ (GMASS*) database or develop profiles of the decision-making process for US candidates based on data in the mba.com Prospective Students Survey Interactive Report.

## Notes About the GMAT ${ }^{\circledR}$ Exam

The GMAT exam consists of four sections: Verbal, Quantitative, Analytical Writing, and Integrated Reasoning. GMAT "Total" scores, which are reported in this report, are calculated based on performance on the Verbal and Quantitative sections of the exam. Total scores are reported in increments of 10, on a scale ranging from 200 to 800 . Results are valid for a five-year period from test sitting. Please note that GMAT volume was artificially elevated in TY2012 as many examinees opted to sit for the exam before the addition of Integrated Reasoning (IR) in June 2012.

## About GMAT ${ }^{\text { }}$ Examinees

Data in this report reflect the total number of GMAT exams that generated valid, reportable scores during a given testing year. Examinees who took the exam more than once during the year are included in the aggregate data each time they generated a valid score. For example, if an individual took the GMAT exam twice during the 2014 testing year, he or she would represent a total of two exams taken during that year. Program breakdown data is based on a school's current GMAT code classifications for its respective programs.

## About This Report

This Data-to-Go brief is prepared by GMAC researchers and summarizes five years of data for GMAT exams taken and score reports sent worldwide, filtered by US and Canadian residence at time of GMAT registration.

## Related Admissions Recruiting Resources

Looking for more students? The Graduate Management Admission Search Service (GMASS*) database can help you find the best talent to recruit for your programs. As a GMAT score recipient, you have access to the GMASS global database of prospective candidates interested in graduate management education-nearly 400,000 candidates who are waiting to hear from you.

The benefits of using the GMASS service:

- Target your audience: Use more than 30 criteria to narrow your search and tailor your message for the best response rate.
- Get the most up-to-date contacts: The global GMASS database is updated daily.
- Find the best candidates anytime, anywhere with our easy-to-use web-based application.
- Save time: Receive automatic results daily, weekly, or monthly, and save your best searches.
- Recruit early: Target GMAT pre-test candidates early in their decision-making process.
- Save money: GMASS is a cost-effective way to build multichannel marketing programs.

To get more information, or to start a GMASS subscription, please contact Paula McKay at pmckay@gmac.com, or visit gmac.com/gmass.

## Market Research

## GMAC provides timely information to help drive your strategic decisions

GMAC trends analysis and statistical data on graduate business education inform business and employment reporting in leading news publications. Below is a list of the research we produce.

Survey Research: See your programs, students, employers, and alumni reflected in the latest data and use that information to make fact-based organizational decisions in admissions, program design, and career services.

Interactive Research: Use interactive research tools to visually display trends and export data. (Note: Due to the rich potential for market advantage, access to our most detailed tools is limited to GMAT using schools and study participants.)

E
Data to Go: Get rich data from test takers and survey research in focused briefs about particular markets, respondent segments, and topics of interest.

Research Reports: Stay up to date on the latest research about high-stakes testing, GMAT validity, and studies related to the business education market.

GMAC Research Library: Get quick access to all of our research available online, including exclusives for GMAT using and GMAC member schools.

GMAC Research Calendar: Check the calendar for important survey and publication dates.
