Most Recent Appointment Number With Reportable Scores: 6024683

For the Quantitative, Verbal, Total and Analytical Writing sections, the percentages shown below represent the percent of the test-taking population in the previous three years that scored lower than your score. Because the Integrated Reasoning (IR) section has only recently been introduced, the percentages shown below for IR represent the percent of the test-taking population that have taken IR and scored lower than your score.

Test Date	Verbal	Quantitative	Total	Analytical Writing	Integrated Reasoning
23 June 2011	6 / 0%	7 / 1%	200 / 0%	4.5 / 38%	3.0 / 22%

- **T (Testing issue)**-GMAC canceled the score due to an issue that affected the administration of the test. Examples include, but are not limited to, administrative errors, equipment problems, issues related to registration or payment, and disruptions caused by illness, natural disasters or other emergencies.

Analysis of an Argument

Topic

IBN: 186:00040 - Read the argument and the instructions that follow it, and then make any notes that will help you plan your response. Begin typing your response in the box at the bottom of the screen.

The following appeared in the editorial section of a corporate newsletter.

Discuss how well reasoned you find this argument. In your discussion be sure to analyze the line of reasoning and the use of evidence in the argument. For example, you may need to consider what questionable assumptions underlie the thinking and what alternative explanations or counterexamples might weaken the conclusion.

You can also discuss what sort of evidence would strengthen or refute the argument, what changes in the argument would make it more logically sound, and what, if anything, would help you better evaluate its conclusion.
