

EXECUTIVE ASSESSMENT

**INCREASED FLEXIBILITY
TO HELP YOU MEET YOUR
BUSINESS SCHOOL GOALS**

About the Executive Assessment

The Executive Assessment allows you to demonstrate your real-world experience and readiness to succeed in your selected business program. This helps admissions teams understand how to best support your success in their program.

Made specifically with the experienced leader in mind, this assessment is easy to schedule, short in duration, requires minimal preparation, and is available to take online or at a test center.

The Executive Assessment measures the skills that are critical both at work and in a business program such as higher order reasoning, critical thinking, analysis, and problem-solving. Based on your results, you can work to sharpen your skills and enter your program feeling confident.

Online or at a Test Center

Choosing where and how to take your Executive Assessment is one of personal preference. Both options offer flexible experiences with the same 40 question format and the same 90 minute time commitment to take your assessment. The online option is available around the clock and you can take it anywhere. The test center option provides you with a structured and controlled environment in which to take your assessment. Choose the option that meets your needs and will help you attain the best results to achieve your graduate business school goals.

Assessment Options

Both the online and test center options offer a 90-minute, 40-question format at the same price. Online appointments are available anytime and test center appointments can be made 7 days a week but limited to test center operating hours.

Testing Experience

The Executive Assessment Online can be taken in the comforts of your own home or office. If a more controlled environment for testing makes you more comfortable, then a test center option may be right for you.

Scoring and Score Reporting

With either option you can send your scores to as many programs as you like, with no additional fees. Scores can be viewed and sent through your Executive Assessment dashboard. You view your scores immediately after the test center assessment whereas your scores are available within 7 business days after your online assessment.
