# Why take the GMAT® exam as an undergrad?

- Your test-taking peak is now
- You can apply to grad school later – your test score is good for 5 years
- Accelerate your career path and make more money

# Your test-taking peak is now

How much of your high school education  
can you actually remember?

Exactly.

- 1** You'll forget what you learned fast
- 2** You're at your test-taking peak right now
- 3** You're the best head space to get the highest scores

Your study skills are perfectly honed, so  
take advantage of that. Two to three years  
from now... not so much.

# Your test score is good for 5 years

Don't worry if you're not ready to apply to grad school right away – your scores will still be good 5 years from now.

# Accelerate your career path and make more money

If you want to make your first million by 30, you need to make some smart decisions at 20. Taking the GMAT<sup>®</sup> exam now is the perfect place to start.
