B-School Alumni Employment Report

Alumni Perspectives Survey 2018

The *B-School Alumni Employment Report, Alumni Perspectives Survey 2018* report is a product of the Graduate Management Admission Council (GMAC), a nonprofit organization of 223 leading graduate business schools from around the world actively committed to advancing the art and science of admissions. The Council provides the solutions necessary for business schools and candidates to discover and evaluate one another to ensure that talent never goes undiscovered. GMAC owns and administers the Graduate Management Admission Test® (GMAT®) exam, used by more than 7,000 graduate programs worldwide, as well as the NMAT by GMAC™ exam, used for entrance into graduate management programs in India. The Council is based in Reston, VA, with offices in London, New Delhi, and Hong Kong.

Introduction

10,882 Alumni from 274 Institutions Responded to the GMAC Alumni Perspectives Survey

During the fourth quarter of 2017, the Graduate Management Admission Council (GMAC) partnered with 51 institutions to facilitate the Alumni Perspectives Survey. In addition, GMAC surveyed past alumni participants, which increased institutional representation to 274. In total, nearly 11,000 alumni responded and provided detailed information about their graduate management education and employment experiences.

Alumni who responded represent various MBA and business master's program categories, including full-time MBA, professional MBA, executive MBA, quantitative business master's, and non-quantitative business master's programs. Full-time MBA programs include two- and one-year programs. Professional MBA programs include part-time, flexible, and online MBA programs. Quantitative business master's programs include master in accounting, data analytics, and finance programs. Non-quantitative business master's programs include master's in management, international management, marketing, and entrepreneurship.

This report—the second in a series of topical reports based on this year's Alumni Perspectives Survey—presents the findings associated with business school alumni employment, including employment status, entrepreneurship, industry, job functions, and salary. In addition, detailed data is shown for eight industries, including products/services, technology, finance/accounting, and consulting.

Explore with Interactive and Benchmark Reports

An *Interactive Data Report* and *Benchmark Report* tool accompany the *2018 Alumni Perspectives Survey*, available exclusively to institutions that participated in the survey. The *Interactive Data Report* is an online tool that lets users customize data searches by multiple survey response variables such as overall value, career preparation, employment characteristics, and more. The *Benchmark Report* tool allows schools to benchmark their program's responses against aggregated response from their peers.

Business School Participation in GMAC Research

The Graduate Management Admission Council offers graduate business schools opportunities to gather data and generate insights about the business school pipeline.

Schools can sign-up to participate in the GMAC Application Trends Survey, Corporate Recruiters Survey, and Alumni Perspectives Survey at <http://www.gmac.com/surveysignup>.

Introduction

Demographic Profile of B-School Alumni

Program Type		Respondents	Gender		Median Age At Graduation	Median Years Since Graduation	School Location	
			Male	Female			U.S.	Non-U.S.
Overall		10,882	74%	26%	30	6	74%	26%

Executive Summary

B-School Alumni Find Career Success Across a Range of Industries and Job Functions, with Variation by Graduation Year

The vast majority of b-school alumni are employed, whether for a company (79%) or as self-employed entrepreneurs (10%). B-school alumni working for companies tend to work for multinational organizations (61%) and a third (33%) work for companies with more than 25,000 employees. Nearly 1 in 10 alumni work at start-ups (8%).

B-school alumni are employed across a range of industries and job functions. The top industries include products/services (20%), technology (17%), and finance/accounting (15%). The most common job functions include general management (24%), finance/accounting (21%), and marketing/sales (18%). Recent alumni are more likely than earlier alumni to work in the technology and products/services industries. Earlier alumni are more likely to work in the finance/accounting and consulting industries.

The majority of business school alumni feel their graduate management education advanced their careers at a faster rate compared with peers who do not have a graduate management education. Recent alumni tend to be employed in mid-level positions (49%), while those who graduated earlier have climbed into senior, executive, or c-suite positions.

The median base salary among alumni is US\$115,000, with variation by job level and location. For instance, the median salary of b-school alumni working at mid-level positions in the US is US\$105,000 compared with US\$85,000 in Canada, US\$75,000 in Europe, and US\$55,000 in Asia-Pacific. At the executive level, b-school alumni working in the US earn US\$185,000 compared with US\$135,000 in Canada, US\$145,000 in Europe, and US\$130,000 in Asia-Pacific.

One in 10 b-school alumni are entrepreneurs. The rate of entrepreneurship among alumni increases with years removed from graduation. For instance, 5 percent of the class of 2017 are self-employed compared with 17 percent of the class of 2001 and 23 percent of the class of 1991.

Entrepreneurs most often found their own business (85%) rather than purchasing a business (8%) or other means of acquisition. Only 14 percent of alumni entrepreneurs sought venture capital, but the majority of those that did received at least some venture capital (69%). Entrepreneurs are driven by the desire to be their own boss, they see self-employment as the best avenue for their ideas, and they believe entrepreneurship is an opportunity for greater income.

Current Employment Status

Current Employment Status

Most Alumni Are Employed for a Company (79%) or as an Entrepreneur (10%)

Overall, 89 percent of responding b-school alumni are employed, including 79 percent that work for a company and 10 percent that are self-employed entrepreneurs. The unemployment rate* among respondents is 6 percent. Alumni who were domestic students during their studies currently have an unemployment rate of 4 percent compared with an unemployment rate of 11 percent among alumni who were international students during their studies.

* Employment statistics are recalculated to align with Bureau of Labor Statistics U-3 "Total unemployed, as a percent of the civilian labor force," which removes individuals not in the workforce (6% of the alumni sample) from the calculation (<https://www.bls.gov/news.release/empsit.t15.htm>)

B-School Alumni Entrepreneurs

B-School Alumni Entrepreneurs

B-School Alumni Tend To Embark on Entrepreneurial Ventures Several Years After Graduation

Job Function

Recent B-School Alumni Are More Likely To Work in Marketing/Sales, Consulting, and Operations/Logistics

Job Level

B-School Alumni Climb the Corporate Hierarchy as They Accumulate Experience; Most Satisfied with Career Progression

Most alumni from the classes of 2016 and 2017 currently work in mid-level (49%) or senior-level (23%) positions. An additional 19 percent are in entry-level positions. As alumni accumulate experience, they tend to rise to higher job levels. For example, most alumni that graduated between 1996 and 2000 currently work in senior level (34%) and executive level (29%) positions.

Overall, most alumni are satisfied with their career progression to date (76%). Earlier alumni express higher levels of satisfaction with their career progression than recent alumni.

Satisfaction with Career Progression

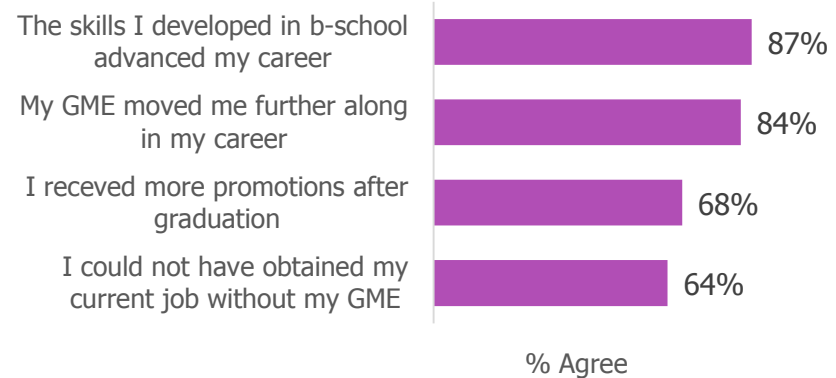

Job Levels, by Graduation Year

Graduate Management Education Advances Careers of Alumni Compared with Peers Without a Business Degree

Respondents were asked to indicate their level of agreement with statements about their career progression relative to peers who do not have a graduate management education.
