

Built for ambition. Focused on you.

Accelerate your future with the graduate business exam that's more efficient, flexible, and insightful to best help you achieve your career ambition.

GMAT™ Focus Edition is...

Efficient.

It features fewer sections, so you can experience more efficient prep and a shorter exam time.

Flexible.

Personalize your experience with Select Section Order and Question Review & Edit.

Insightful.

Benefit from the improved Official Score Report with detailed performance insights.

Why choose GMAT Focus Edition?

Personalized insights

Improved Official Score Report with detailed performance insights.

Focused on flexibility

Once you know your score, select five schools and submit it to them – for free!

Shortest GMAT ever

Nearly one hour shorter than the previous version.

Classroom-ready content

Three sections that only focus on relevant business skills.

Studying streamlined

Reduced content to study means less to prep.

Multiple-choice questions

No more writing section, unlike other exams.

The GMAT™ Focus Edition advantage

GMAT™ Focus Edition is the most widely used assessment by global business schools because it demonstrates your readiness, is the best predictor of academic success, and only covers the skills and business-relevant concepts that schools focus on.

It also has the test features graduate business school applicants look for that other exams don't offer, such as:

Question Review & Edit

Review as many questions as you want and edit up to three answers per section.

Select Section Order

Complete three sections in the order of your choosing.

Official Score Report

A highly detailed performance report included free with your exam registration.

Free practice exams

Prep with two free full-length exams that use the same scoring algorithm as the real exam.

Free post-exam score sending

Send your scores to up to five programs for free within 48 hours of receiving your Official Score.
